

# TechTool Pro Report

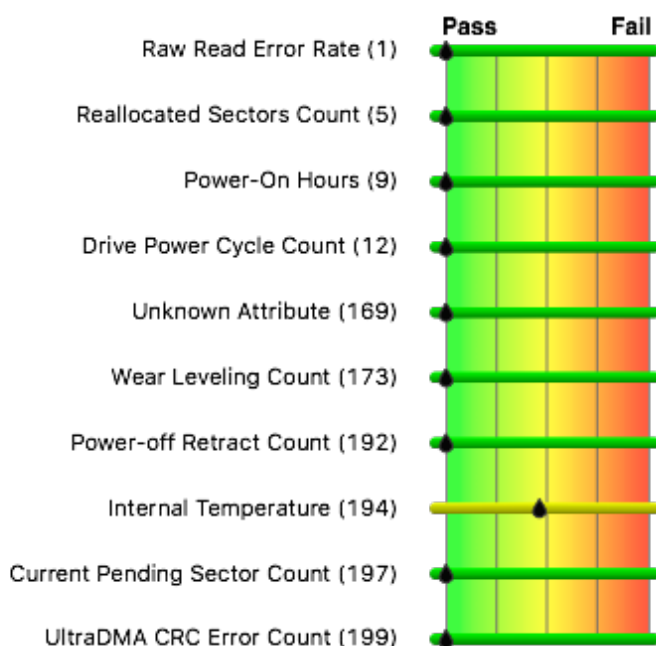

## SMART Check

**Completed:**  
08 May 2016 11:09

**Device:**  
121.33 GB APPLE SSD SM128E  
S0YBNYAD438456

### PASSED

The SMART Check test reads the SMART parameters of an ATA or SATA hard drive in order to warn of impending drive failure while time remains to take preventative action.
